

30TH, 31ST AUGUST & 1ST SEPTEMBER
FRANKFURT, GERMANY

Automotive 

14TH AUTOMOTIVE **STEERING SYSTEMS 2022**

ADAS & AV | STEER-BY-WIRE | STEERING DESIGN | CYBER SECURITY

Join Automotive IQ and a host of industry leaders from across the automotive steering ecosystem at the **14th Automotive Steering Systems Conference 2022**. With thought-led presentations, technical demonstrations and case studies providing actual solutions to the greatest challenges in steering design, cyber security, safety, and automated driving.

Focusing on the core challenges underpinning steering system design and their end goals:

- > Increasing Efficiencies in Terms of Weight, Volume & Performance <
- > Reducing Cost & Optimizing Productivity, Safety and User Comfort <
- > Tightening the Screws on Power Consumption and Emissions Levels <
